Jongmin Lee

Linkedin & GitHub: jo-9m-n1 | Portfolio: jongmin.tech

EDUCATION

McGill University | Montreal, QC **May 2029** (Est.)
B.Sc. in Computer Science - Artificial Intelligence
- Relevant Coursework: Software Systems, Probability

Dawson College | Montreal, QC **May 2026**
Science, Computer Science and Mathematics
- Relevant Coursework: Discrete Math, Data Structures, Linear Algebra

EXPERIENCE

McGill Computer Science Undergraduate Society – *Montreal, Canada* **Oct 2026 – Present**
Software Developer
Collaborated with 10+ developers to architect websites useful for CS students at McGill

McGill Computer Taskforce – *Montreal, Canada* **Oct 2026 – Present**
Contributor
- Maintaining CTF's server and website

McHacks – *Montreal, Canada* **Jun 2026 – Present**
Development Coordinator
- Collaborate with a team of 9 developers to architect the McHacks 14 portal using React, Node.js and MongoDB, supporting registration for 500+ participants

PROJECTS

Liminal (Mila AI for Good Hackathon) | Python & PyTorch
- Engineered a dual-tier AI safety guardrail in PyTorch to audit and validate LLM outputs, **boosting crisis recall by 9x** and enforcing deterministic safety boundaries against hallucinations in safety-critical environments.

Dr. Bob (ConUHacks **2nd** in Dialogue Track) | Python, Gemini API & Twilio
- Developed an AI patient intake pipeline using Gemini and Twilio APIs to convert voice calls into medical data.

Chemically Bonded | Python, JavaScript & Gemini API
- A chemistry AI chatbot **reducing 3D model generation latency by 27.1x** compared to Claude Sonnet 4.6.

OurCampus (JACHacks **1st**) | Next.js, UniFi, Gemini API & Python
- A campus connection app that **parses PDF schedules** to find mutual free time and maps active campus hotspots using the UniFi API that processes live network data from **100+ network access points.**

SKILLS

Programming Languages: Python, JavaScript, Java & C
Frameworks & Tools: React, Node.js, Next.js, Flask, PyTorch, Figma, LLM API, MongoDB, Supabase & Git
Spoken Languages: Korean (Native), English (Native) & French (B2)

AWARDS

12 Hackathon & CTF Awards:
JACHacks (**1st** + 1 award), **McGill AeroHacks** (**1st**), **MPC Hacks** (**2nd** in Brim Track + 1 award), **ConUHacks** (**2nd** in Dialogue Track), **Dawson Robotics Hackathon 2025** (**2nd**), **@HACK** (**3rd** in Beginner Track) & more
Other:
Waterloo Math Contest School Champion (**Top 25% globally**), **HME Math Contest** (**1st in Korea**), **Leadership Award** (Dawson College) & **Dean's List** (Dawson College)
