EDUCATION

McGill University (Est.) | Montreal, QC
Computer Science (Bachelor of Science)

June 2029 (Est.)

Dawson College | Montreal, QC
Science, Computer Science and Mathematics

June 2026 (Est.)

EXPERIENCE

GIO Engineering – Jeonju, Korea
Engineering Intern

June 2025 – August 2025

- Made CAD files for architecture

Rosemount High School – Montreal, Canada
Peer tutor

February 2024 - June 2024

- Tutored math and science to other students

PROJECTS

Liminal: Developed a dual-tier AI guardrail system to detect mental health crises in youth-facing virtual assistants, **improving crisis recall by 9x (102 dataset test).**

Dr Bob: Hackathon winning project, Dr. Bob uses Twilio to automate patient intake and history tracking, ensuring medical data is organized for doctors using Gemini API.

DeckMots: Developed a French learning game and uses **Unity and C#**.

Line Following Robot: Built and programmed autonomous black line following robotic system and IR remote control functionality using C++ and the Arduino framework.

SKILLS

Programming Languages: Python (Flask, PANDAS, Numpy and Matplotlib), JavaScript

Languages: Korean (Native), English (Native), French (B2)

AWARDS & CERTIFICATES

2nd Place for Dialogue Track in **ConUHacks 2026**

Best New Genre Award in Dialogue Internal Hackathon Q1 2026

Best use of Gemini API in Concordia HackDécouverte 2025

Top 25% in the world in Waterloo Math Contest (School Champion)

1st Place in McGill AeroHacks 2026

3rd Place for Beginner Track in **@HACK (CTF) 2026** and 9th place for the Regular Track

2nd Place in Dawson Robotics Hackathon 2025

Dean's list in Dawson College (Fall 2024)

Excellence in Mathematics in The Ultimate Math League organized by the English Montreal School Board

Dawson Recognition of Student Involvement (Fall 2025)

Top 1% in Korea in HME Math Contest (Scored 100%)
